

OSoC2015 Questionnaire

Garrett, R. K., & Weeks, B. E. (2017). Epistemic beliefs' role in promoting misperceptions and conspiracist ideation. *PLOS ONE*. doi: 10.1371/journal.pone.0184733

Please tell us how much you agree or disagree with each of the following statements about facts and scientific claims.

Strongly Disagree			Neither Agree Nor Disagree			Strongly Agree
1	2	3	4	5	6	7

- eb1.** Facts depend on their political context
- eb2.** What is true is influenced by the social setting
- eb3.** Facts are dictated by those in power
- eb4.** There are multiple truths in every situation
- eb5.** The truth is relative
- eb6.** What counts as truth is defined by power
- eb7.** Scientific conclusions are shaped by politics
- eb8.** Scientific results are free of political influence
- eb9.** The political situation doesn't change the facts
- eb10.** The truth is absolute and knowable

Please tell us how much you agree or disagree with the following statements about how you reach your opinions.

Strongly Disagree			Neither Agree Nor Disagree			Strongly Agree
1	2	3	4	5	6	7

- eb11.** I believe what I want to believe, no matter what the evidence is
- eb12.** I trust my gut to tell what's true and what's not
- eb13.** I am a very intuitive person
- eb14.** I can usually feel when a claim is true or false even if I can't explain how I know
- eb15.** I trust my initial feelings about the facts
- eb16.** My initial impressions are almost always right
- eb17.** Evidence is more important than whether something feels true
- eb18.** I trust the facts, not my instincts, to tell me what is true
- eb19.** A hunch needs to be confirmed with data
- eb20.** I need to be able to justify my beliefs with evidence
